JAMES MAY WRITER & BROADCASTER
MARVELLOUS MACHINES

James loves human-powered vehicles! That's any vehicle that doesn't require any fuel or another source of power. All it takes to move these remarkable vehicles is the power of our muscles. If you could invent a human-powered vehicle, what would it be?

Use this space to draw your marvellous machine.

Perhaps it could be a car or plane that you have to pedal to move? Think about what shape and size might work well. What materials could you use?
